**STATE IMMIGRATION BOARD**—The State Immigration Board met in Richmond yesterday, and adopted the following proposition, made by Messrs. Imboden and Page:

1st. That the Board shall appoint General G. Tothman its general agent in Europe to promote immigration to Virginia; and that under the control of the Board there shall be appointed domestic agents in Virginia.

2d. That such agents shall not authorize the making of any contract or the performance of any act by any of the agents to create any pecuniary liability on the part of the State of Virginia or of the Board.

3d. That all publications made by any of said agents through the public press, or by circulars or otherwise, shall be first submitted to and approved by the Board.

4th. That the funds necessary to carry on the business of the agencies hereby created shall be raised in such a manner as said agents may adopt.

5th. That the sales of lands to immigrants shall be the subject of private contract between said agents, the owners of the lands and the immigrants, upon such terms as the parties may agree upon, and in all cases it shall be provided that the purchaser shall have the privilege of inspecting the land, in person or by an attorney, before his contract of purchase shall become binding upon him.

6th. All transactions of said agents with immigrants shall be recorded by them and be subject to inspection by the Board, and if disapproved, the agency hereby created may be revoked and set aside at any time by order of the Board; and we agree semi-annually, to make to the Board a full report of our transactions here and in Europe.

7th. It is further agreed that said agents in Virginia shall have the appointment of other agents to induce emigration from abroad—such appointments to be ratified by the Board of Immigration.

**A GREAT MISTAKE.**—It is a great mistake to suppose there exists in the South any prejudice against Northern men *per se*. There are thousands of New Englanders we could take to our arms. There are men on the hills of Vermont, on the mountain sides of New Hampshire, in Boston, who love liberty as dearly as the descendants of Jefferson and Patrick Henry, dwelling on the banks of the James and the Potomac at the present day. This day, among some of the Puritans on Boston Bay, who with Virginia and Carolina, there are men for the lost art—Republican Government. Such men as Pierce, Seymour, and hundreds of others whom we could name, adding lustre to the history of any people—nor shiftery on the scenes of national tragedy, nor varying with the strongest side—will yet command the country's respect.

To such the South, standing by the ancient landmarks, can offer open arms. Here in old Virginia, where first the sword was drawn against oppression, dismantled and dismembered as she is, we can say to them, "Come, we will welcome you; if we cannot give you liberty, we can offer you a genial sky and fertile soil, and a people who, like you, love the liberty that is denied them."—*South Opinion.*

**MAN'S HEAD SHAVED.**—The Richmond Examiner says, United States Deputy Marshal Duncan, last week, in obedience to the mandate of Judge Underwood, of the District Court of the United States (who acted on an indictment found by the grand jury), proceeded to the county of Mecklenburg and levied on a distillery there, for an alleged violation of law. After doing so in due form, the Deputy Marshal left an attendant in charge, with strict orders to let nobody come near the place, and to keep it under lock and key till he came again. He had not been gone more than twenty-four hours before some unknown persons introduced themselves, and, producing a dull razor and some turpentine soap, persuaded the guard to part with all of his hair, after which they left, leaving, however, an injunction that he make himself scarce with all due expedition, which he did with speed, arriving in this city Sunday night. The operators in this case are unknown, consequently no suit has been instituted against the perpetrators of this vile outrage.—*Lynch.*

**DIFFERENCES IN THE SHAPE OF FEET.**—The New York Herald and Leather Journal notices a few of the differences in the shape of the pedal extremities of people in various sections of the country.

Shoes made for one locality are not adapted for all. For instance, a broad shoe, wide in the shank, is best adapted to the Eastern trade, a narrow sole meeting with little favor. Rhode Island, though the smallest State in the Union, can boast of having some of the biggest feet that ever trod sole-leather. The Middle States require slimmer shoes and higher in the instep than the East. The instep grows higher as we progress southward, commencing with Virginia, and the foot shapers and more plump. Rarely, at the North, does a full grown man wear less than a No. 6, running up in the scale of sizes to No. 11; but, at the South, many a full-sized man wears fours and fives, and seldom over nines.

**GRAIN FROM CALIFORNIA.**—California expects to compete hereafter with the Eastern States in supplying the grain markets of Europe. The Alta California says: "This year the greatest wheat has been sufficient shipping to carry away the surplus crop to foreign markets. Hereafter we shall not be troubled on that account, as the shippers and grain dealers of the Eastern States and Europe now understand that we have a large trade upon which they can rely. With a lively competition in shipping, San Francisco, even by way of Cape Horn, can always reach the markets of Europe with her grain a little cheaper than Chicago, so that our farmers will have the advantage of those of Illinois, Michigan, Wisconsin and Iowa in price, and double or treble the advantage in production to the area planted."

**KNOW THY DESTINY.**—MADAME E. F. THORNTON, the great English Astrologist, Clairvoyant and Psychometrist, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N.Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychoscope, guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can attest.—She will send, when desired, a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications strictly confidential. Address, in confidence, Madame E. F. Thornton, P. O. Box 2234 Hudson, N. Y.

**FERTILIZERS, &c.**  
The subscriber has on hand a full assortment of the most approved MANURES, which he has prepared to sell in any quantity desired, at the LOWEST MARKET RATES.  
As the prices are uniform the farmer can obtain his supplies as well by correspondence as though he were to purchase in person.  
Peruvian Guano, of the best quality.  
Bolivian Guano. This article comes from the same section as Peruvian, which it closely resembles in texture and appearance. It is much richer in phosphate, but has less ammonia. For the soil it will do well, but will answer quite as well as Peruvian, and it costs but two thirds the price of that article.  
Mexican Guano, of four grades.  
Ground Bones.  
Whitlock's Concentrated. The high reputation borne by this article as the most effective and reliable crop producer made in the United States, induces me to ask the farmer to test it alongside of any manure he may apply.  
Colston's Ammoniated Bone Phosphate. This article is manufactured by the same house, and contains all the best qualities of Peruvian Guano and Ground Bones.  
WM. H. IRWIN,  
No. 5, south Union street.  
mh 28-11

**GUANO—REED'S AMMONIATED SUPERPHOSPHATE OF LIME.**—The best fertilizer for the farmer, possessing all the activity of Peruvian Guano, but being far more durable in its effects.  
It contains a large amount of animal matter in a highly concentrated form, which, combined with its soluble bone phosphate of lime, cannot fail to render it very valuable as a fertilizer. Notwithstanding we believe it to be the best super-phosphate in the market, yet, by a process peculiar in its manufacture, whereby the expenses are lessened, we are enabled to sell it very low, at a liberal discount to dealers.

**REPARATOR CAPILLI.**  
Throw away your false frizzes, your switches, your wig—  
Destructive of comfort, and not worth a fig: Come aged, come youthful, come ugly and fair, And rejoice in your own luxuriant hair.  
REPARATOR CAPILLI.  
For restoring hair upon bald heads (from whatever cause it may have fallen out) and forcing a growth of hair in the scalp, will curl straight hair, and will restore the hair to its smoothness in from five to eight weeks, or hair upon bald heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the genuine from the spurious? It is certainly difficult, as nine-tenths of the different preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Capilli; it will cost you nothing unless it fully cures you up to the representation. If your druggist does not keep it, send us \$1, and we will forward it, postpaid, together with a receipt for the money, which will be returned you on application, providing entire satisfaction is not given.
